DATE OF APPROVAL: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Separate permits are required for electrical, mechanical, and plumbing work, available at the Tillamook County Department of Community Development.

Approved permit includes only work described above and/or plans and specifications bearing the same permit number and will comply with all applicable codes and ordinances governing zoning and construction.

The granting of this permit does not presume to give authority to violate or cancel the provisions of any state or local law regulating construction or the performance of construction.

This permit becomes null and void if construction, installation and/or other work as authorized is not commenced within 180 days, or is discontinued for 180 days.

This permit is issued according to current state, county and city codes. Prior to construction or placement it is advisable that you check the deed for the property in case other restrictions apply.

### FEES ARE NOT REFUNDABLE

I hereby certify that the above information is correct and understand that issuance of a permit based on this application will not excuse me from complying with effective Ordinances and Resolutions of the City of Tillamook and Statutes of Oregon, despite any errors on the part of the issuing authority in checking this application.
